**REQUEST FOR CERTIFICATE OF CORRECTION UNDER 37 CFR § 1.322 FOR
CORRECTION OF OFFICE MISTAKE**

Honorable Commissioner of Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

As provided in detail in the attached, the patentee respectfully requests that a Certificate of Correction be granted in the above-identified patent to correct mistakes in a patent, incurred through the fault of the Office.

Under 37 CFR 1.322, "The Commissioner may issue a certificate of correction pursuant to 35 U.S.C. 254 to correct a mistake in a patent, incurred through the fault of the Office, which mistake is clearly disclosed in the records of the Office at the request of the patentee or the patentee's assignee."

The patentee furthermore requests Expedited Issuance of this Certificate of Correction in accordance with MPEP § 1480.01. Specifically, this section provides that:

In an effort to reduce the overall time required in processing and granting Certificate of Correction requests, the Office will expedite processing and granting of patentee requests where such requests are

MAR 27 2007

accompanied by evidence to show that the error is attributable solely to the Office Where the correction requested was incurred through the fault of the Office, and the matter is clearly disclosed in the records of the Office, and is accompanied by documentation that unequivocally supports the patentee's assertion(s), a Certificate of Correction will be expeditiously issued. MPEP § 1480.01

The following errors appear to have occurred through the fault of the Office, and the patentee respectfully requests correction thereof.

In the *Information Disclosure Statement* filed April 25, 2006 (received by the Office of Petitions on April 26 and May 1, 2006), and in the *Correction to Previously Submitted Information Disclosure Statement* filed June 8, 2006 (received by OIPE June 12, 2006), the patentee submitted the following references:

US	6,673,436	1/2004	Kawaguchi et al.
WO	01/88041	11/2001	
EP	1 270 675	1/2003	

NAKAMURA et al., *Percolation Threshold of Carbon Black-Polyethylene Composites*, Jpn. J. Appl. Phys., Vol. 36, No. 8, Pages 5163-5168, August, 1997.

Examiner Negron indicated his consideration of the references noted above by attaching initialed copies of the Forms PTO-1449 to the *Notice of Allowance* mailed August 3, 2006 (copies attached herewith; the patentee has lined through an incorrect citation of the Nakamura article, which was cited with correct information in the *Correction* filed June 8, 2006).

Apparently, due to an error by the Patent Office, the resulting patent issued on February 20, 2007, without citations to the references noted above. As a result, page 2 of the patent includes errors by omission.

Therefore, the patentee respectfully requests that citations of the references noted above be included in a Certificate of Correction.

As the errors were incurred through the fault of the Office, a fee is not believed to be necessary. Should it be determined that a fee is necessary, any deficiencies or overages in any fees due in connection with this patent and the requested actions should be applied to Deposit Account No. 50-2280(0756-2389).

Respectfully submitted,

Eric J. Robinson
Reg. No. 38,285
